

Previously

- 2010 - exploratory...
 - Talking about how we get started. ANDS projects kicking off. A lot of project work. Champions.
- 2011 - advancement...
 - awareness raising, data storage. Importance of partnerships across units.
- 2012 -
 - libraries & seeding the commons projects. what about metadata stores

BoF – Institutional Service and Capability Building

- Post-external funding, strategies for sustaining and expanding?
- What services do researchers use, find useful?
- What's your approach to communicating, driving uptake?
- What's the minimum/key points you've got to communicate? Getting past "How do I access research data?" to how you should manage.
